

VR Trailer Maker (Beta)

VR Trailer Maker (Beta) is a simple cloud solution to create 360 videos to promote your VR games and/or experiences.

Upload Limit: 1000 mb (1 GB)

Processing Time: Up to 48 Hours (During our beta stage all composed video files are reviewed for processing errors)

Instructions:

- 1) From the Tools Menu select VR Trailer Maker.
- 2) Enter email address to be notified when the 360 video is ready for download.
- 3) Select a background music track for the promotional unit.
- 4) Select the End Room platform that is specific to your game or select general for a platform agnostic End Room.
- 5) Create a zip file that includes your images sequence(s), video file(s), and/or 360 screenshots of your game. Select "Upload" and wait for the confirmation.
- 6) Once our cloud system completes the processing of your content you will receive a email with a download link.
(During our Beta stage all content will be reviewed to ensure accuracy)
